GIPRO TAPE INDUSTRY

Joint compound consistency is an important part of achieving a good finish. Automatic taping tools require a thinner compound (more water) than setting by hand. The consistency should be smooth and creamy, slightly thinner for taping, slightly thicker for finishing. Ensure you follow manufacturers recommendations.

GIPRO TAPE INDUSTRY

**GIPRO

Mud Box Pro

The **Gipro** has evolved! The easiest taping tool to learn to use and the easiest to clean. The Gipro Tape Industry simultaneously applies paper tape and joint compound to all flat and internal angle joints.

Features:

- Rugged construction using stainless steel, anodised aluminium and industrial plastics
- Simple mud bath operation - fewer moving parts
- Can be used with chemical setting (base) compounds
- **Rear controls for operating creaser wheel and tape cutter**
- **Feed roller allows you to easily continue taping after cut-off**
- **Improved spool retaining springs to stop bending**
- **Increased reach over old design**

GIPRO TAPE INDUSTRY

Incorporated in 2001, Gipro Tape Industry Drywall Tool Company proudly offers contractors and distributors worldwide the finest Automatic Taping Tools on the market today. With over 50 years of expertise in the Drywall industry, Drywall Tools are designed to reduce work fatigue and increase productivity keeping labour costs to a minimum. Utilising state of the art technology, premium quality aluminium and stainless steel components, Drywall Tools are field tough. Gipro Tape Industry Drywall Tools provide a professional finish while increasing your productivity to work 3 to 4 times faster than taping by hand.

The **Gipro** line of tools is complete and incorporates design expertise that provides the contractor with greater reliability. At **Gipro** Drywall Tools we stand by our tools and proudly offer a 3 year warranty.

Gipro Drywall Tools is a proud Australian company dedicated to developing and manufacturing the worlds' leading Automatic Drywall Tools. Through continuous research and development, stringent quality control and the largest after market technical support program available, **Gipro** Drywall Tool Company is committed to providing contractors worldwide with tools to give them the "Professional Edge".

AT-2000	Automatic

Automatic

The BEST Automatic Gipro on the market! Featuring a superior design the Tapepro Automatic Taper simultaneously applies paper tape and the correct amount of joint compound to all flat and internal angle joints on walls and ceilings.

Features:

- Rugged design built to last
- Unique quick release head for ease of cleaning
- Can be used with chemical setting (base) compounds
- Easily removed cover plate for easy access to internal parts
- Easy to use control tube with extra wide rollers to reduce wear
- Simplified design with less moving parts
- Easily adjustable backup roller tension
- Stainless steel drive chain
- Larger filler valve delivers faster loading
- Improved feed mechanism allows for incremental feeding of tape without causing rips

Code No.	Description
WMB-L	Mud Box

Mud Box

The **Gipro Mud Box™** simultaneously applies paper tape and the correct amount of joint compound to all flat and internal angle joints. It can be used with 75 or 150m rolls of paper tape, and features a spring loaded combination creaser wheel and tape cutter. It is easily cleaned and can be used with chemical setting compounds.

Features:

- Rugged construction using stainless steel, aluminium and industrial plastics
- Simple mud bath operation - fewer moving parts
- Combined creaser/cutter
- Can be used with chemical setting (base) compounds

Nail Spotters

The **Gipro** Nail Spotters are designed to fill nail and screw indentations, allowing quick application over multiple nail lines.

Features:

- Superior peened construction
- Axle mounted pressure plate for the smoothest operation
- Adjustable inter-lock handle position
- Larger 1 1/8" tube for reduced fatigue and ultimate comfort
- Wheels on a fixed axle for smooth gliding
- Kick plate for quick wall positioning
- Easy opening door for quick cleaning

LP-EZ	Loading Pump
FBF	Flat Box Filler
GS	Gooseneck

Loading Pump

The **Gipro** Loading Pump is truly the world's toughest pump. Featuring a superior design this robust tool can be used with quick-set or air drying compound to fill tools in the **Gipro** range. It can be fitted with two attachments: the Gooseneck (GS), which is used for filling the Automatic Guard and Compound Tube; and the Flat Box Filler (FBF), for Flat Boxes, Nail Spotters, and Mud Boxes. With the nozzle removed, the FBF can be used to fill the Corner Box. The latest feature is our new self priming pump spring. This feature eliminates the need to prime your pump providing contractors with a pump that is "Primed for Action!"

Features:

- Rugged Aluminium and stainless steel components
- Powder coated pump tube
- Quick release detent ring pin in handle for easy stowage
- Longer pump handle for added leverage and less fatigue
- Precision machined head
- Quick release clip mounted on the pump head for easy cleaning

FFB-200	Flat Finishing Box 200mm
FFB-250	Flat Finishing Box 250mm
FFB-300	Flat Finishing Box 300mm

Flat Finishing Boxes

The **Gipro** Flat Boxes apply joint compound to all flat recess or butt joints, automatically crowning the joint and feathering out the edges. The blade tension is easily adjusted for the perfect coat.

Features:

- High capacity
- Anodised marine grade aluminium plates peened together for superior strength and durability
- Lid mounted on axle with bearings opens and operates smoothly
- Wheels run inside blade width
- Unique spring design allows fully opening lid for easy access
- Available in 200mm, 250mm & 300mm

CR-H	Corner Roller w/handle

Corner Roller

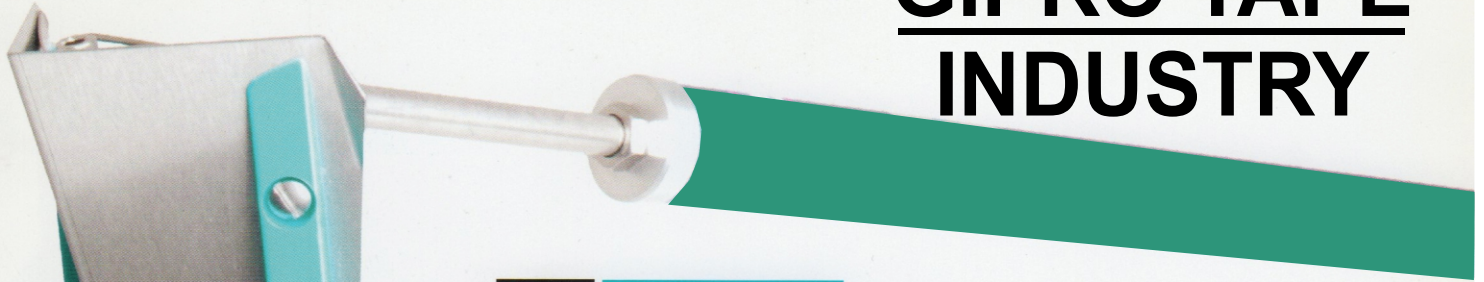

For bedding paper tape into internal angles, there's nothing better than a **Gipro** Corner Roller. Designed for use after the Automatic Giproor Mud Box, the self aligning rollers force compound into the apex of the corner and force excess compound out. Nothing beds in paper tape or Beadex better.

Features:

- Die cast aluminium body for durability and performance
- Durable solid stainless steel rollers and bushings provide smoother operation
- Swivel attachment adjusts to angle

CFH-1200	Corner Finisher Handle

Corner Finisher Handle

The **Gipro** Corner Finisher Handle is designed for use with corner finishers and straight glazers and features an Acetal ball for reduced friction and wear. NEW - Extension version (XH) 960mm - 1600mm

Glazers

The **Gipro** Straight Glazers™ let you glaze off taped internals with ease. After applying tape and bedding it in with the Corner Roller, simply run the Straight Glazer from top to bottom and it will simultaneously wipe off excess compound and feather the edges, leaving you with a perfect first coat. Use the 75mm or 90mm for finish coats. When used with a Corner Box or Compound Tube, the **Gipro** Corner Glazer applies compound and feathers the edges in one pass - just like a Corner Finisher.

Features:

- Made from durable stainless steel and Acetal
- Easy snap fit on handle

CF-65	Corner Finisher 65mm
CF-75	Corner Finisher 75mm
CF-90	Corner Finisher 90mm

Corner Finisher

The **Gipro** Corner Finisher is the finest precision built finisher on the market! When fitted to the Corner Box, joint compound is forced through the Corner Finisher into the angle, the finisher then feathers the edges to produce a smooth joint. The 65mm Corner Finisher is designed to be used in conjunction with the Corner Finisher Handle to glaze off excess compound and feather the edges after the corner roller. The 75mm and 90mm apply a finishing coat when fitted to the Corner Box.

Features:

- Precision machined billet aluminium head provides durability and performance
- Fabricated stainless steel frames provide superior fit ensuring smooth operation
- Carbide blades provide maximum wear resistance
- Anodized for increased durability

GIPRO TAPE INDUSTRY

Corner Box

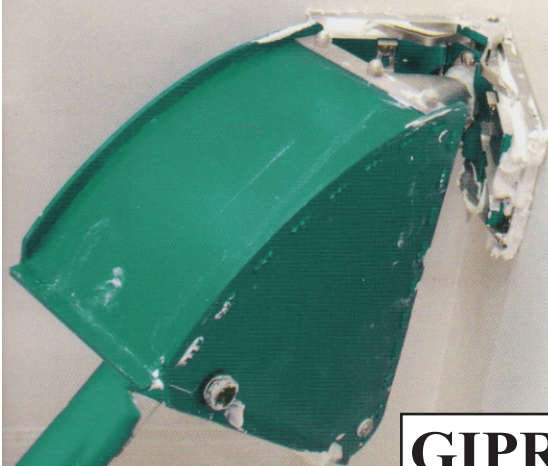

The **Gipro** Corner Box is designed to deliver joint compound to the Corner Finishers or Corner Glazer. Featuring our rugged peened plate construction and advanced axle design the Corner Box delivers effortless performance.

Features:

- Super tough peened construction
- High capacity for higher productivity
- Long reach cone for tight corners
- Safety cable to attach to Corner Finisher
- Easy open/close pressure plate for complete cleaning
